Detailed error codes list

ORA-0000: normal, successful completion

ORA-00001: unique constraint (.) violated

ORA-00017: session requested to set trace event

ORA-00018: maximum number of sessions exceeded

ORA-00019: maximum number of session licenses exceeded

ORA-00020: maximum number of processes () exceeded

ORA-00021: session attached to some other process; cannot switch session

ORA-00022: invalid session ID; access denied

ORA-00023: session references process private memory; cannot detach session

ORA-00024: logins from more than one process not allowed in single-process mode

ORA-00025: failed to allocate

ORA-00026: missing or invalid session ID

ORA-00027: cannot kill current session

ORA-00028: your session has been killed

ORA-00029: session is not a user session

ORA-00030: User session ID does not exist.

ORA-00031: session marked for kill

ORA-00032: invalid session migration password

ORA-00033: current session has empty migration password

ORA-00034: cannot in current PL/SQL session

ORA-00035: LICENSE_MAX_USERS cannot be less than current number of users

ORA-00036: maximum number of recursive SQL levels () exceeded

ORA-00037: cannot switch to a session belonging to a different server group

ORA-00038: Cannot create session: server group belongs to another user

ORA-00039: error during periodic action

ORA-00040: active time limit exceeded - call aborted

ORA-00041: active time limit exceeded - session terminated

ORA-00042: Unknown Service name

ORA-00050: operating system error occurred while obtaining an enqueue

ORA-00051: timeout occurred while waiting for a resource

ORA-00052: maximum number of enqueue resources () exceeded

ORA-00053: maximum number of enqueues exceeded

ORA-00054: resource busy and acquire with NOWAIT specified

ORA-00055: maximum number of DML locks exceeded

ORA-00056: DDL lock on object '.' is already held in an incompatible mode

ORA-00057: maximum number of temporary table locks exceeded

ORA-00058: DB_BLOCK_SIZE must be to mount this database (not)

ORA-00059: maximum number of DB_FILES exceeded

ORA-00060: deadlock detected while waiting for resource

ORA-00061: another instance has a different DML_LOCKS setting

ORA-00062: DML full-table lock cannot be acquired; DML_LOCKS is 0

ORA-00063: maximum number of log files exceeded

ORA-00064: object is too large to allocate on this O/S (,)

ORA-00065: initialization of FIXED_DATE failed

ORA-00066: SID contains an illegal character

ORA-00067: invalid value for parameter ; must be at least

ORA-00068: invalid value for parameter , must be between and

ORA-00069: cannot acquire lock -- table locks disabled for

ORA-00070: command is not valid

ORA-00071: process number must be between 1 and

ORA-00072: process "" is not active

ORA-00073: command takes between and argument(s)

ORA-00074: no process has been specified

ORA-00075: process "" not found in this instance

ORA-00076: dump not found

ORA-00077: dump is not valid

ORA-00078: cannot dump variables by name

ORA-00079: variable not found

ORA-00080: invalid global area specified by level

ORA-00081: address range [,) is not readable

ORA-00082: memory size of is not in valid set of [1], [2], [4]

ORA-00083: warning: possibly corrupt SGA mapped

ORA-00084: global area must be PGA, SGA, or UGA

ORA-00085: current call does not exist

ORA-00086: user call does not exist

ORA-00087: command cannot be executed on remote instance

ORA-00088: command cannot be executed by shared server

ORA-00089: invalid instance number in ORADEBUG command

ORA-00090: failed to allocate memory for cluster database ORADEBUG command

ORA-00091: LARGE_POOL_SIZE must be at least

ORA-00092: LARGE_POOL_SIZE must be greater than LARGE_POOL_MIN_ALLOC

ORA-00093: must be between and

ORA-00094: requires an integer value

ORA-00096: invalid value for parameter , must be from among

ORA-00097: use of Oracle SQL feature not in SQL92 Level

ORA-00100: no data found

ORA-00101: invalid specification for system parameter DISPATCHERS

ORA-00102: network protocol cannot be used by dispatchers

ORA-00103: invalid network protocol; reserved for use by dispatchers

ORA-00104: deadlock detected; all public servers blocked waiting for resources

ORA-00105: too many dispatcher configurations

ORA-00106: cannot startup/shutdown database when connected to a dispatcher

ORA-00107: failed to connect to ORACLE listener process

ORA-00108: failed to set up dispatcher to accept connection asynchronously

ORA-00109: invalid value for attribute :

ORA-00110: invalid value for attribute , must be between and

ORA-00111: invalid attribute

ORA-00112: value of is null

ORA-00113: protocol name is too long

ORA-00114: missing value for system parameter SERVICE_NAMES

ORA-00115: connection refused; dispatcher connection table is full

ORA-00116: SERVICE_NAMES name is too long

ORA-00117: PROTOCOL, ADDRESS or DESCRIPTION must be specified

ORA-00118: Only one of PROTOCOL, ADDRESS or DESCRIPTION may be specified

ORA-00119: invalid specification for system parameter

ORA-00122: cannot initialize network configuration

ORA-00123: idle public server terminating

ORA-00125: connection refused; invalid presentation

ORA-00126: connection refused; invalid duplicity

ORA-00127: dispatcher does not exist

ORA-00128: this command requires a dispatcher name

ORA-00129: listener address validation failed "

ORA-00130: invalid listener address "

ORA-00131: network protocol does not support registration "

ORA-00132: syntax error or unresolved network name "

ORA-00133: value of is too long

ORA-00134: invalid DISPATCHERS specification #

ORA-00150: duplicate transaction ID

ORA-00151: invalid transaction ID

ORA-00152: current session does not match requested session

ORA-00153: internal error in XA library

ORA-00154: protocol error in transaction monitor

ORA-00155: cannot perform work outside of global transaction

ORA-00160: global transaction length is greater than maximum ()

ORA-00161: transaction branch length is illegal (maximum allowed)

ORA-00162: external dbid length is greater than maximum ()

ORA-00163: internal database name length is greater than maximum ()

ORA-00164: distributed autonomous transaction disallowed within migratable distributed transaction

ORA-00165: migratable distributed autonomous transaction with remote operation is not allowed

ORA-00166: remote/local nesting level is too deep

ORA-00200: control file could not be created

ORA-00201: control file version incompatible with ORACLE version

ORA-00202: control file: "

ORA-00203: using the wrong control files

ORA-00204: error in reading (block , # blocks) of control file

ORA-00205: error in identifying control file, check alert log for more info

ORA-00206: error in writing (block , # blocks) of control file

ORA-00207: control files are not for the same database

ORA-00208: number of control file names exceeds limit of

ORA-00209: control file blocksize mismatch, check alert log for more info

ORA-00210: cannot open the specified control file

ORA-00211: control file does not match previous control files

ORA-00212: block size below minimum required size of bytes

ORA-00213: cannot reuse control file; old file size , required

ORA-00214: control file " version inconsistent with file " version

ORA-00215: must be at least one control file

ORA-00216: control file could not be resized for migration from 8.0.2

ORA-00217: control file could not be resized for new record types

ORA-00218: block size of control file " does not match DB_BLOCK_SIZE ()

ORA-00219: required control file size (logical blocks) exceeds maximum allowable size (logical blocks)

ORA-00220: control file not mounted by first instance, check alert log for more info

ORA-00221: error on write to control file

ORA-00222: operation would reuse name of a currently mounted control file

ORA-00223: convert file is invalid or incorrect version

ORA-00224: control file resize attempted with illegal record type ()

ORA-00225: expected size of control file differs from actual size

ORA-00226: operation disallowed while alternate control file open

ORA-00227: corrupt block detected in control file: (block , # blocks)

ORA-00228: length of alternate control file name exceeds maximum of

ORA-00229: operation disallowed: already hold snapshot control file enqueue

ORA-00230: operation disallowed: snapshot control file enqueue unavailable

ORA-00231: snapshot control file has not been named

ORA-00232: snapshot control file is nonexistent, corrupt, or unreadable

ORA-00233: copy control file is corrupt or unreadable

ORA-00234: error in identifying or opening snapshot or copy control file

ORA-00235: control file fixed table inconsistent due to concurrent update

ORA-00236: snapshot operation disallowed: mounted control file is a backup

ORA-00237: snapshot operation disallowed: control file newly created

ORA-00238: operation would reuse a filename that is part of the database

ORA-00239: timeout waiting for control file enqueue: held by " for more than seconds

ORA-00240: control file enqueue held for more than seconds

ORA-00250: archiver not started

ORA-00251: LOG_ARCHIVE_DUPLEX_DEST cannot be the same destination as string

ORA-00252: log of thread is empty, cannot archive

ORA-00253: character limit exceeded by archive destination string

ORA-00254: error in archive control string "

ORA-00255: error archiving log of thread , sequence #

ORA-00256: cannot translate archive destination string

ORA-00257: archiver error. Connect internal only, until freed.

ORA-00258: manual archiving in NOARCHIVELOG mode must identify log

ORA-00259: log of open instance (thread) is the current log, cannot archive

ORA-00260: cannot find online log sequence for thread

ORA-00261: log of thread is being archived or modified

ORA-00262: current log of closed thread cannot switch

ORA-00263: there are no logs that need archiving for thread

ORA-00264: no recovery required

ORA-00265: instance recovery required, cannot set ARCHIVELOG mode

ORA-00266: name of archived log file needed

ORA-00267: name of archived log file not needed

ORA-00268: specified log file does not exist "

ORA-00269: specified log file is part of thread not

ORA-00270: error creating archive log

ORA-00271: there are no logs that need archiving

ORA-00272: error writing archive log

ORA-00273: media recovery of direct load data that was not logged

ORA-00274: illegal recovery option

ORA-00275: media recovery has already been started

ORA-00276: CHANGE keyword specified but no change number given

ORA-00277: illegal option to the UNTIL recovery flag

ORA-00278: log file " no longer needed for this recovery

ORA-00279: change generated at needed for thread

ORA-00280: change for thread is in sequence #

ORA-00281: media recovery may not be performed using dispatcher

ORA-00282: UPI call not supported, use ALTER DATABASE RECOVER

ORA-00283: recovery session canceled due to errors

ORA-00284: recovery session still in progress

ORA-00285: TIME not given as a string constant

ORA-00286: no members available, or no member contains valid data

ORA-00287: specified change number not found in thread

ORA-00288: to continue recovery type ALTER DATABASE RECOVER CONTINUE

ORA-00289: suggestion :

ORA-00290: operating system archival error occurred. See error below

ORA-00291: numeric value required for PARALLEL option

ORA-00292: parallel recovery feature not installed

ORA-00293: control file out of sync with redo log

ORA-00294: invalid archivelog format specifier "

ORA-00295: datafile/tempfile number is invalid, must be between 1 and

ORA-00296: maximum number of files () exceeded for RECOVER DATAFILE LIST

ORA-00297: must specify RECOVER DATAFILE LIST before RECOVER DATAFILE START

ORA-00298: Missing or invalid attribute value

ORA-00299: must use file-level media recovery on data file

ORA-00300: illegal redo log block size specified - exceeds limit of

ORA-00301: error in adding log file " - file cannot be created

ORA-00302: limit of logs exceeded

ORA-00303: cannot process Parallel Redo

ORA-00304: requested INSTANCE_NUMBER is busy

ORA-00305: log of thread inconsistent; belongs to another database

ORA-00306: limit of instances in this database

ORA-00307: requested INSTANCE_NUMBER out of range, maximum is

ORA-00308: cannot open archived log "

ORA-00309: log belongs to wrong database

ORA-00310: archived log contains sequence ; sequence required

ORA-00311: cannot read header from archived log

ORA-00312: online log thread : "

ORA-00313: open failed for members of log group of thread

ORA-00314: log of thread , expected sequence# doesn't match

ORA-00315: log of thread , wrong thread # in header

ORA-00316: log of thread , type in header is not log file

ORA-00317: file type in header is not log file

ORA-00318: log of thread , expected file size doesn't match

ORA-00319: log of thread has incorrect log reset status

ORA-00320: cannot read file header from log of thread

ORA-00321: log of thread , cannot update log file header

ORA-00322: log of thread is not current copy

ORA-00323: Current log of thread not useable and all others need archiving

ORA-00324: log file " translated name " too long, characters exceeds limit

ORA-00325: archived log for thread , wrong thread # in header

ORA-00326: log begins at change , need earlier change

ORA-00327: log of thread , physical size less than needed

ORA-00328: archived log ends at change , need later change

ORA-00329: archived log begins at change , need change

ORA-00330: archived log ends at change , need change

ORA-00331: log version incompatible with ORACLE version

ORA-00332: archived log is too small - may be incompletely archived

ORA-00333: redo log read error block count

ORA-00334: archived log: "

ORA-00335: online log : No log with this number, log does not exist

ORA-00336: log file size blocks is less than minimum blocks

ORA-01539: tablespace " is not online

ORA-01540: tablespace " is not offline

ORA-01541: system tablespace cannot be brought offline; shut down if necessary

ORA-01542: tablespace " is offline, cannot allocate space in it

ORA-01543: tablespace " already exists

ORA-01544: cannot drop system rollback segment

ORA-01545: rollback segment " specified not available

ORA-01546: tablespace contains active rollback segment "

ORA-01547: warning: RECOVER succeeded but OPEN RESETLOGS would get error below

ORA-01548: active rollback segment " found, terminate dropping tablespace

ORA-01549: tablespace not empty, use INCLUDING CONTENTS option

ORA-01550: cannot drop system tablespace

ORA-01551: extended rollback segment, pinned blocks released

ORA-01552: cannot use system rollback segment for non-system tablespace "

ORA-01553: MAXEXTENTS must be no smaller than the extents currently allocated

ORA-01554: out of transaction slots in transaction tables

ORA-01555: snapshot too old: rollback segment number with name "" too small

ORA-01556: MINEXTENTS for rollback segment must be greater than 1

ORA-01557: rollback segment extents must be at least blocks

ORA-01558: out of transaction ID's in rollback segment

ORA-01559: MAXEXTENTS for rollback segment must be greater than 1

ORA-01560: LIKE pattern contains partial or illegal character

ORA-01561: failed to remove all objects in the tablespace specified

ORA-01562: failed to extend rollback segment number

ORA-01563: rollback segment is PUBLIC, need to use the keyword PUBLIC

ORA-01564: rollback segment is not PUBLIC

ORA-01565: error in identifying file "

ORA-01566: file specified more than once in ALTER DATABASE

ORA-01567: dropping log would leave less than 2 log files for instance (thread)

ORA-01568: cannot set space quota on PUBLIC

ORA-01569: data file too small for system dictionary tables

ORA-01570: MINEXTENTS must be no larger than the extents currently allocated

ORA-01571: redo version incompatible with ORACLE version

ORA-01572: rollback segment " cannot be brought online, extents exceeded

ORA-01573: shutting down instance, no further change allowed

ORA-01574: maximum number of concurrent transactions exceeded

ORA-01575: timeout waiting for space management resource

ORA-01576: The instance is not enabled

ORA-01577: cannot add log file " - file already part of database

ORA-01578: ORACLE data block corrupted (file # , block #)

ORA-01579: write error occurred during recovery

ORA-01580: error creating control backup file

ORA-01581: attempt to use rollback segment () new extent () which is being allocated

ORA-01582: unable to open control file for backup

ORA-01583: unable to get block size of control file to be backed up

ORA-01584: unable to get file size of control file to be backed up

ORA-01585: error identifying backup file

ORA-01586: database must be mounted EXCLUSIVE and not open for this operation

ORA-01587: error during control file backup file copy

ORA-01588: must use RESETLOGS option for database open

ORA-01589: must use RESETLOGS or NORESETLOGS option for database open

ORA-01590: number of segment free list () exceeds maximum of

ORA-01591: lock held by in-doubt distributed transaction

ORA-01592: error converting Version 7 rollback segment () to Oracle 8 format

ORA-01593: rollback segment optimal size (blks) is smaller than the computed initial size (blks)

ORA-01594: attempt to wrap into rollback segment () extent () which is being freed

ORA-01595: error freeing extent () of rollback segment (())

ORA-01596: cannot specify system in parameter

ORA-01597: cannot alter system rollback segment online or offline

ORA-01598: rollback segment " is not online

ORA-01599: failed to acquire rollback segment (), cache space is full

ORA-01600: at most one "" in clause "" of

ORA-01601: illegal bucket size in clause "" of

ORA-01603: illegal grouping size in clause "" of

ORA-01604: illegal number range in clause "" of

ORA-01605: missing numbers in clause "" of

ORA-01606: gc_files_to_locks not identical to that of another mounted instance

ORA-01607: cannot add logfile to the specified instance

ORA-01608: cannot bring rollback segment " online, its status is ()

ORA-01609: log is the current log for thread - cannot drop members

ORA-01610: recovery using the BACKUP CONTROLFILE option must be done

ORA-01611: thread number is invalid - must be between 1 and

ORA-01612: instance (thread) is already enabled

ORA-01613: instance (thread) only has logs - at least 2 logs required to enable.

ORA-01614: instance (thread) is busy - cannot enable

ORA-01615: instance (thread) is mounted - cannot disable

ORA-01616: instance (thread) is open - cannot disable

ORA-01617: cannot mount: is not a valid thread number

ORA-01618: redo thread is not enabled - cannot mount

ORA-01619: thread is mounted by another instance

ORA-01620: no public threads are available for mounting

ORA-01621: cannot rename member of current log if database is open

ORA-01622: thread number must be specified - default not specific

ORA-01623: log is current log for instance (thread) - cannot drop

ORA-01624: log needed for crash recovery of instance (thread)

ORA-01625: rollback segment " does not belong to this instance

ORA-01626: rollback segment number " cannot handle more transactions

ORA-01627: rollback segment number " is not online

ORA-01628: max # extents () reached for rollback segment

ORA-01629: max # extents () reached saving undo for tablespace

ORA-01630: max # extents () reached in temp segment in tablespace

ORA-01631: max # extents () reached in table .

ORA-01632: max # extents () reached in index .

ORA-01633: Real Application Clusters Option needed for this operation

ORA-01634: rollback segment number " is about to go offline

ORA-01635: rollback segment # specified not available

ORA-01636: rollback segment " is already online

ORA-01637: rollback segment " is being used by another instance (#)

ORA-01638: parameter does not allow ORACLE version to mount cluster database

ORA-01639: instance has no thread assigned to it

ORA-01640: cannot make tablespace read only with active transactions

ORA-01641: tablespace " is not online - cannot add data file

ORA-01642: begin backup not needed for read only tablespace "

ORA-01643: system tablespace can not be made read only

ORA-01644: tablespace " is already read only

ORA-01645: previous attempt to make read write is half complete

ORA-01646: tablespace " is not read only - cannot make read write

ORA-01647: tablespace " is read only, cannot allocate space in it

ORA-01648: log is the current log of disabled instance (thread)

ORA-01649: operation not allowed with a backup control file

ORA-01650: unable to extend rollback segment by in tablespace

ORA-01651: unable to extend save undo segment by for tablespace

ORA-01652: unable to extend temp segment by in tablespace

ORA-01078: failure in processing system parameters

ORA-01079: ORACLE database was not properly created, operation aborted

ORA-01080: error in shutting down ORACLE

ORA-01081: cannot start already-running ORACLE - shut it down first

ORA-01082: 'row_locking = always' requires the transaction processing option

ORA-01083: value of parameter "" is inconsistent with that of other instances

ORA-01084: invalid argument in OCI call

ORA-01085: preceding errors in deferred rpc to ".."

ORA-01086: savepoint " never established

ORA-01087: cannot start up ORACLE - currently logged on

ORA-01088: cannot shut down ORACLE while active processes exist

ORA-01089: immediate shutdown in progress - no operations are permitted

ORA-01090: shutdown in progress - connection is not permitted

ORA-01091: failure during startup force

ORA-01092: ORACLE instance terminated. Disconnection forced

ORA-01093: ALTER DATABASE CLOSE only permitted with no sessions connected

ORA-01094: ALTER DATABASE CLOSE in progress. Connections not permitted

ORA-01095: DML statement processed zero rows

ORA-01096: program version () incompatible with instance ()

ORA-01097: cannot shutdown while in a transaction - commit or rollback first

ORA-01098: program Interface error during Long Insert

ORA-01099: cannot mount database in SHARED mode if started in single process mode

ORA-01100: database already mounted

ORA-01101: database being created currently mounted by some other instance

ORA-01102: cannot mount database in EXCLUSIVE mode

ORA-01103: database name " in control file is not "

ORA-01104: number of control files () does not equal

ORA-01105: mount is incompatible with mounts by other instances

ORA-01106: database must be closed before dismounting

ORA-01107: database must be mounted for media recovery

ORA-01108: file is in backup or media recovery

ORA-01109: database not open

ORA-01110: data file : "

ORA-01111: name for data file is unknown - rename to correct file

ORA-01112: media recovery not started

ORA-01113: file needs media recovery

ORA-01114: IO error writing block to file (block #)

ORA-01115: IO error reading block from file (block #)

ORA-01116: error in opening database file

ORA-01117: adding file " with illegal block size: ; limit is

ORA-01118: cannot add any more database files: limit of exceeded

ORA-01119: error in creating database file "

ORA-01120: cannot remove online database file

ORA-01121: cannot rename database file - file is in use or recovery

ORA-01122: database file failed verification check

ORA-01123: cannot start online backup; media recovery not enabled

ORA-01124: cannot recover data file - file is in use or recovery

ORA-01125: cannot disable media recovery - file has online backup set

ORA-01126: database must be mounted in this instance and not open in any instance

ORA-01127: database name " " exceeds size limit of characters

ORA-01128: cannot start online backup - file is offline

ORA-01129: user's default or temporary tablespace does not exist

ORA-01130: database file version incompatible with ORACLE version

ORA-01131: DB_FILES system parameter value exceeds limit of

ORA-01132: length of database file name " " exceeds limit of characters

ORA-01133: length of log file name " " exceeds limit of characters

ORA-01134: database mounted exclusive by another instance

ORA-01135: file accessed for DML/query is offline

ORA-01136: specified size of file (blocks) is less than original size of blocks

ORA-01137: data file is still in the middle of going offline

ORA-01138: database must either be open in this instance or not at all

ORA-01139: RESETLOGS option only valid after an incomplete database recovery

ORA-01140: cannot end online backup - all files are offline or readonly

ORA-01141: error renaming data file - new file " " not found

ORA-01142: cannot end online backup - none of the files are in backup

ORA-01143: cannot disable media recovery - file needs media recovery

ORA-01144: File size (blocks) exceeds maximum of blocks

ORA-01145: offline immediate disallowed unless media recovery enabled

ORA-01146: cannot start online backup - file is already in backup

ORA-01147: SYSTEM tablespace file is offline

ORA-01148: cannot refresh file size for datafile

ORA-01149: cannot shutdown - file has online backup set

ORA-01150: cannot prevent writes - file has online backup set

ORA-01151: use media recovery to recover block, restore backup if needed

ORA-01152: file was not restored from a sufficiently old backup

ORA-01153: an incompatible media recovery is active

ORA-01154: database busy. Open, close, mount, and dismount not allowed now

ORA-01155: the database is being opened, closed, mounted or dismounted

ORA-01156: recovery in progress may need access to files

ORA-01157: cannot identify/lock data file - see DBWR trace file

ORA-01158: database already mounted

ORA-01159: file is not from same database as previous files - wrong database id

ORA-01160: file is not a

ORA-01161: database name in file header does not match given name of

ORA-01162: block size in file header does not match configured block sizes

ORA-01163: SIZE clause indicates (blocks), but should match header

ORA-01164: MAXLOGFILES may not exceed

ORA-01165: MAXDATAFILES may not exceed

ORA-01166: file number is larger than ()

ORA-01167: two files are the same file/group number or the same file

ORA-01168: physical block size does not match size of other members

ORA-01169: DATAFILE number 1 not found. Must be present

ORA-01170: file not found "

ORA-01171: datafile going offline due to error advancing checkpoint

ORA-01172: recovery of thread stuck at block of file

ORA-01173: data dictionary indicates missing data file from system tablespace

ORA-01174: DB_FILES is but needs to be to be compatible

ORA-01175: data dictionary has more than the files allowed by the instance

ORA-01176: data dictionary has more than the files allowed by the controlfile

ORA-01177: data file does not match dictionary - probably old incarnation

ORA-01178: file created before last CREATE CONTROLFILE, cannot recreate

ORA-01179: file does not exist

ORA-01180: can not create datafile 1

ORA-01181: file created before last known RESETLOGS, cannot recreate

ORA-01182: cannot create database file - file is in use or recovery

ORA-01183: cannot mount database in SHARED mode

ORA-01184: logfile group already exists

ORA-01185: logfile group number is invalid

ORA-01186: file failed verification tests

ORA-01187: cannot read from file because it failed verification tests

ORA-01188: Block size in header does not match physical block size

ORA-01189: file is from a different RESETLOGS than previous files

ORA-01190: control file or data file is from before the last RESETLOGS

ORA-01191: file is already offline - cannot do a normal offline

ORA-01192: must have at least one enabled thread

ORA-01193: file is not the same file seen at start of recovery

ORA-01194: file needs more recovery to be consistent

ORA-01195: online backup of file needs more recovery to be consistent

ORA-01196: file is inconsistent due to a failed media recovery session

ORA-01197: thread only contains one log

ORA-01198: must specify size for log file if RESETLOGS

ORA-01199: file is not in online backup mode

ORA-01200: actual file size of is smaller than correct size of blocks

ORA-01201: file header failed to write correctly

ORA-01202: wrong incarnation of this file - wrong creation time

ORA-01203: wrong incarnation of this file - wrong creation SCN

ORA-01204: file number is rather than - wrong file

ORA-01205: not a data file - type number in header is

ORA-01206: file is not part of this database - wrong database id

ORA-01207: file is more recent than control file - old control file

ORA-01208: data file is an old version - not accessing current version

ORA-01209: data file is from before the last RESETLOGS

ORA-01210: data file header is media corrupt

ORA-01211: Oracle7 data file is not from migration to Oracle8

ORA-01212: MAXLOGMEMBERS may not exceed

ORA-01213: MAXINSTANCES may not exceed

ORA-01214: MAXLOGHISTORY may not exceed

ORA-01215: enabled thread is missing after CREATE CONTROLFILE

ORA-01216: thread is expected to be disabled after CREATE CONTROLFILE

ORA-01217: logfile member belongs to a different logfile group

ORA-01218: logfile member is not from the same point-in-time

ORA-01219: database not open: queries allowed on fixed tables/views only

ORA-01220: file based sort illegal before database is open

ORA-01221: data file is not the same file to a background process

ORA-01222: MAXINSTANCES of requires MAXLOGFILES be at least , not

ORA-01223: RESETLOGS must be specified to set a new database name

ORA-01224: group number in header does not match GROUP

ORA-01225: thread number is greater than MAXINSTANCES

ORA-01226: file header of log member is inconsistent with other members

ORA-01227: log is inconsistent with other logs

ORA-01228: SET DATABASE option required to install seed database

ORA-01229: data file is inconsistent with logs

ORA-01230: cannot make read only - file is offline

ORA-01231: cannot make read write - file is offline

ORA-01232: cannot start online backup - file is being made read-only

ORA-01233: file is read only - cannot recover using backup control file

ORA-01234: cannot end backup of file - file is in use or recovery

ORA-01235: END BACKUP failed for file(s) and succeeded for

ORA-01236: Error occurred during initialization of file header access

ORA-01237: cannot extend datafile

ORA-01238: cannot shrink datafile

ORA-01239: database must be in ARCHIVELOG mode to use external cache

ORA-01240: too many data files to add in one command

ORA-01241: an external cache has died

ORA-01242: data file suffered media failure: database in NOARCHIVELOG mode

ORA-01243: system tablespace file suffered media failure

ORA-01244: unnamed datafile(s) added to control file by media recovery

ORA-01245: offline file will be lost if RESETLOGS is done

ORA-01246: recovering files through TSPITR of tablespace

ORA-01247: database recovery through TSPITR of tablespace

ORA-01248: file was created in the future of incomplete recovery

ORA-01249: archiving not allowed in a clone database

ORA-01250: Error occurred during termination of file header access

ORA-01251: Unknown File Header Version read for file number

ORA-01252: cannot prevent writes - file in recovery manager backup

ORA-01253: cannot start online backup - file in recovery manager backup

ORA-01254: cannot end online backup - file in recovery manager backup

ORA-01255: cannot shutdown - file in recovery manager backup

ORA-01256: error in locking database file

ORA-01257: cannot reuse database file , unknown file size

ORA-01258: unable to delete temporary file

ORA-01259: unable to delete datafile

ORA-01260: warning: END BACKUP succeeded but some files found not to be in backup mode

ORA-01261: Parameter destination string cannot be translated

ORA-01262: Stat failed on a file destination directory

ORA-01263: Name given for file destination directory is invalid

ORA-01264: Unable to create file name

ORA-01265: Unable to delete

ORA-01266: Unable to create unique file name

ORA-01267: Failure getting date/time

ORA-01268: invalid TEMPFILE clause for alter of permanent TABLESPACE

ORA-01269: Destination parameter string is too long

ORA-01270: operation is not allowed if STANDBY_PRESERVES_NAMES is true

ORA-01271: Unable to create new file name for file

ORA-01272: REUSE only allowed when a file name is provided.

ORA-01273: STANDBY_FILE_MANAGEMENT = AUTO needs COMPATIBLE = or higher

ORA-01274: cannot add datafile " - file could not be created

ORA-01275: Operation is not allowed if standby file management is automatic.

ORA-01276: Cannot add file . File has an Oracle Managed Files file name.

ORA-01277: file " already exists

ORA-01278: error creating file "

ORA-01279: db_files too large

ORA-01280: Fatal LogMiner Error.

ORA-01281: SCN range specified is invalid

ORA-01282: date range specified is invalid

ORA-01283: Options specified is invalid

ORA-01284: file cannot be opened

ORA-01285: error reading file

ORA-01286: start interval required

ORA-01287: file is from a different database incarnation

ORA-01289: cannot add duplicate logfile

ORA-01290: cannot remove unlisted logfile

ORA-01291: missing logfile

ORA-01292: no log file has been specified for the current LogMiner session

ORA-01293: mounted database required for specified LogMiner options

ORA-01294: error occurred while processing information in dictionary file , possible corruption

ORA-01295: DB_ID mismatch between dictionary and logfiles

ORA-01296: character set mismatch between dictionary and logfiles

ORA-01297: redo version mismatch between dictionary and logfiles

ORA-01298: conflicting dictionary option

ORA-01299: dictionary corresponds to a different database incarnation

ORA-01300: writable database required for specified LogMiner options

ORA-01301: error writing to file during flat file build

ORA-01302: dictionary build options missing or incorrect

ORA-01303: subordinate process error: %u. Check alert and trace logs

ORA-01304: subordinate process error. Check alert and trace logs

ORA-01306: dbms_logmnr.start_logmnr() must be invoked before selecting from v\$logmnr_contents

ORA-01307: no LogMiner session is currently active

ORA-01308: initialization parameter utl_file_dir is not set

ORA-01309: invalid session

ORA-01310: requested return type not supported by the lcr_mine function

ORA-01311: Illegal invocation of the mine_value function

ORA-01312: Specified table/column does not exist

ORA-01313: LogMiner dictionary column type different from specified type

ORA-01314: Name of the column to be mined should be a string literal

ORA-01315: Log file has been added or removed during select

ORA-01316: Already attached to a Logminer session

ORA-01317: Not attached to a Logminer session

ORA-01319: Invalid Logminer session attribute

ORA-01320: Invalid Logminer dictionary attribute

ORA-01322: No such table

ORA-01323: Invalid state

ORA-01324: cannot add file due to DB_ID mismatch

ORA-01325: archive log mode must be enabled to build into the logstream

ORA-01326: compatibility of 9.0 or greater required to build into the logstream

ORA-01327: failed to exclusively lock system dictionary as required by build

ORA-01328: only one build operation may occur at one time

ORA-01329: unable to truncate required build table

ORA-01330: problem loading a required build table

ORA-01331: general error while running build

ORA-01332: internal Logminer Dictionary error

ORA-01333: failed to establish Logminer Dictionary

ORA-01334: invalid or missing logminer dictionary processes context

ORA-01335: feature not yet implemented

ORA-01336: specified dictionary file cannot be opened

ORA-01337: log file has a different compatibility version

ORA-01338: Other process is attached to LogMiner session

ORA-01339: LogMiner BUILD: Error copying system catalog metadata to LogMiner dictionary

ORA-01340: NLS error

ORA-01341: LogMiner out-of-memory

ORA-01342: LogMiner can not resume session due to inability of staging checkpointed data

ORA-01343: LogMiner encountered corruption in the logstream

ORA-01344: LogMiner coordinator already attached

ORA-01345: must be a LogMiner coordinator process

ORA-01346: LogMiner processed redo beyond specified reset log scn

ORA-01347: Supplemental log data no longer found

ORA-01348: LogMiner testing event

ORA-01349: LogMiner tracing event

ORA-01350: must specify a tablespace name

ORA-01351: tablespace given for Logminer dictionary does not exist

ORA-01352: tablespace given for Logminer spill does not exist

ORA-01353: existing Logminer session

ORA-01354: Supplemental log data must be added to run this command

ORA-01355: logminer tablespace change in progress

ORA-01356: active logminer sessions found

ORA-01360: invalid token

ORA-01361: global name mismatch

ORA-01370: Specified restart SCN is too old

ORA-01371: Complete LogMiner dictionary not found

ORA-01372: Insufficient processes for specified LogMiner operation

ORA-01373: insufficient memory for staging persistent LogMiner session

ORA-01374: _log_parallelism_max greater than 1 not supported in this release

ORA-01375: Corrupt logfile recovered

ORA-01376: LogMiner testing event

ORA-01399: LogMiner public event

ORA-01400: cannot insert NULL into ()

ORA-01401: inserted value too large for column

ORA-01402: view WITH CHECK OPTION where-clause violation

ORA-01403: no data found

ORA-01404: ALTER COLUMN will make an index too large

ORA-01405: fetched column value is NULL

ORA-01406: fetched column value was truncated

ORA-01407: cannot update () to NULL

ORA-01408: such column list already indexed

ORA-01409: NOSORT option may not be used; rows are not in ascending order

ORA-01410: invalid ROWID

ORA-01411: cannot store the length of column in the indicator

ORA-01412: zero length not allowed for this datatype

ORA-01413: illegal value in packed decimal number buffer

ORA-01414: invalid array length when trying to bind array

ORA-01415: too many distinct aggregate functions

ORA-01416: two tables cannot be outer-joined to each other

ORA-01417: a table may be outer joined to at most one other table

ORA-01418: specified index does not exist

ORA-01419: datdts: illegal format code

ORA-01420: datstd: illegal format code

ORA-01421: datrnd/dattrn: illegal precision specifier

ORA-01422: exact fetch returns more than requested number of rows

ORA-01423: error encountered while checking for extra rows in exact fetch

ORA-01424: missing or illegal character following the escape character

ORA-01425: escape character must be character string of length 1

ORA-01426: numeric overflow

ORA-01427: single-row subquery returns more than one row

ORA-01428: argument " is out of range

ORA-01429: Index-Organized Table: no data segment to store overflow row-pieces

ORA-01430: column being added already exists in table

ORA-01431: internal inconsistency in GRANT command

ORA-01432: public synonym to be dropped does not exist

ORA-01433: synonym to be created is already defined

ORA-01434: private synonym to be dropped does not exist

ORA-01435: user does not exist

ORA-01436: CONNECT BY loop in user data

ORA-01437: cannot have join with CONNECT BY

ORA-01438: value larger than specified precision allowed for this column

ORA-01439: column to be modified must be empty to change datatype

ORA-01440: column to be modified must be empty to decrease precision or scale

ORA-01441: cannot decrease column length because some value is too big

ORA-01442: column to be modified to NOT NULL is already NOT NULL

ORA-01443: internal inconsistency; illegal datatype in resultant view column

ORA-01444: internal inconsistency; internal datatype maps to invalid external type

ORA-01445: cannot select ROWID from, or sample, a join view without a key-preserved table

ORA-01446: cannot select ROWID from, or sample, a view with DISTINCT, GROUP BY, etc.

ORA-01447: ALTER TABLE does not operate on clustered columns

ORA-01448: index must be dropped before changing to desired type

ORA-01449: column contains NULL values; cannot alter to NOT NULL

ORA-01450: maximum key length () exceeded

ORA-01451: column to be modified to NULL cannot be modified to NULL

ORA-01452: cannot CREATE UNIQUE INDEX; duplicate keys found

ORA-01453: SET TRANSACTION must be first statement of transaction

ORA-01454: cannot convert column into numeric datatype

ORA-01455: converting column overflows integer datatype

ORA-01456: may not perform insert/delete/update operation inside a READ ONLY transaction

ORA-01457: converting column overflows decimal datatype

ORA-01458: invalid length inside variable character string

ORA-01459: invalid length for variable character string

ORA-01460: unimplemented or unreasonable conversion requested

ORA-01461: can bind a LONG value only for insert into a LONG column

ORA-01462: cannot insert string literals longer than 4000 characters

ORA-01463: cannot modify column datatype with current constraint(s)

ORA-01464: circular grant (granting to grant ancestor) of table or view

ORA-01465: invalid hex number

ORA-01466: unable to read data - table definition has changed

ORA-01467: sort key too long

ORA-01468: a predicate may reference only one outer-joined table

ORA-01469: PRIOR can only be followed by a column name

ORA-01470: In-list iteration does not support mixed operators

ORA-01471: cannot create a synonym with same name as object

ORA-01472: cannot use CONNECT BY on view with DISTINCT, GROUP BY, etc.

ORA-01473: cannot have subqueries in CONNECT BY clause

ORA-01474: cannot have START WITH or PRIOR without CONNECT BY

ORA-01475: must reparse cursor to change bind variable datatype

ORA-01476: divisor is equal to zero

ORA-01477: user data area descriptor is too large

ORA-01478: array bind may not include any LONG columns

ORA-01479: last character in the buffer is not Null

ORA-01480: trailing null missing from STR bind value

ORA-01481: invalid number format model

ORA-01482: unsupported character set

ORA-01483: invalid length for DATE or NUMBER bind variable

ORA-01484: arrays can only be bound to PL/SQL statements

ORA-01485: compile bind length different from execute bind length

ORA-01486: size of array element is too large

ORA-01487: packed decimal number too large for supplied buffer

ORA-01488: invalid nibble or byte in the input data

ORA-01489: result of string concatenation is too long

ORA-01490: invalid ANALYZE command

ORA-01491: CASCADE option not valid

ORA-01492: LIST option not valid

ORA-01493: invalid SAMPLE size specified

ORA-01494: invalid SIZE specified

ORA-01495: specified chain row table not found

ORA-01496: specified chain row table form incorrect

ORA-01497: illegal option for ANALYZE CLUSTER

ORA-01498: block check failure - see trace file

ORA-01499: table/index cross reference failure - see trace file

ORA-14058: partition number : INITRANS value must be less than MAXTRANS value

ORA-14059: partition " ": INITRANS value must be less than MAXTRANS value

ORA-14060: data type or length of a table partitioning column may not be changed

ORA-14061: data type or length of an index partitioning column may not be changed

ORA-14062: one or more of table's partitions reside in a read-only tablespace

ORA-14063: Unusable index exists on unique/primary constraint key

ORA-14064: Index with Unusable partition exists on unique/primary constraint key

ORA-14065: ALLOCATE STORAGE may not be specified for a partitioned table

ORA-14066: illegal option for a non-partitioned index-organized table

ORA-14067: duplicate TABLESPACE_NUMBER specification

ORA-14068: TABLESPACE and TABLESPACE_NUMBER may not be both specified

ORA-14069: invalid TABLESPACE_NUMBER value

ORA-14070: option may be specified only for partitioned indices or with REBUILD

ORA-14071: invalid option for an index used to enforce a constraint

ORA-14072: fixed table may not be truncated

ORA-14073: bootstrap table or cluster may not be truncated

ORA-14074: partition bound must collate higher than that of the last partition

ORA-14075: partition maintenance operations may only be performed on partitioned indices

ORA-14076: submitted alter index partition/subpartition operation is not valid for local partitioned index

ORA-14078: you may not drop the highest partition of a GLOBAL index

ORA-14079: illegal option for a partition marked Index Unusable

ORA-14080: partition cannot be split along the specified high bound

ORA-14081: new partition name must differ from the old partition name

ORA-14082: new partition name must differ from that of any other partition of the object

ORA-14083: cannot drop the only partition of a partitioned table

ORA-14084: you may specify TABLESPACE DEFAULT only for a LOCAL index

ORA-14085: partitioned table cannot have column with LONG datatype

ORA-14086: a partitioned index may not be rebuilt as a whole

ORA-14087: use of PARTITION (|) syntax

ORA-14088: second argument to tbl\$or\$idx\$part\$num must be an integer constant

ORA-14089: base table does not have an index with a specified ID defined on it

ORA-14090: index must be partitioned

ORA-14091: table must be partitioned

ORA-14092: number of expressions is not equal to the number of partitioning columns

ORA-14093: data type of expression incompatible with that of partitioning column

ORA-14094: invalid ALTER TABLE EXCHANGE PARTITION option

ORA-14095: ALTER TABLE EXCHANGE requires a non-partitioned, non-clustered table

ORA-14096: tables in ALTER TABLE EXCHANGE PARTITION must have the same number of columns

ORA-14097: column type or size mismatch in ALTER TABLE EXCHANGE PARTITION

ORA-14098: index mismatch for tables in ALTER TABLE EXCHANGE PARTITION

ORA-14099: all rows in table do not qualify for specified partition

ORA-14100: partition extended table name cannot refer to a remote object

ORA-14101: partition extended table name cannot refer to a synonym

ORA-14102: only one LOGGING or NOLOGGING clause may be specified

ORA-14103: LOGGING/NOLOGGING may not be combined with RECOVERABLE/UNRECOVERABLE

ORA-14104: RECOVERABLE/UNRECOVERABLE may not be specified for partitioned tables/indices

ORA-14105: RECOVERABLE/UNRECOVERABLE may not be specified in this context

ORA-14106: LOGGING/NOLOGGING may not be specified for a clustered table

ORA-14107: partition specification is required for a partitioned object

ORA-14108: illegal partition-extended table name syntax

ORA-14109: partition-extended object names may only be used with tables

ORA-14110: partitioning column may not be of type ROWID

ORA-14111: creation of a GLOBAL partitioned index on clustered tables is not supported

ORA-14112: RECOVERABLE/UNRECOVERABLE may not be specified for a partition or subpartition

ORA-14113: partitioned table cannot have column with LOB datatype

ORA-14114: partitioned table cannot have column with object, REF, nested table, array datatype

ORA-14115: partition bound of partition number is too long

ORA-14116: partition bound of partition "" is too long

ORA-14117: partition resides in offlined tablespace

ORA-14118: CHECK constraint mismatch in ALTER TABLE EXCHANGE PARTITION

ORA-14119: specified partition bound is too long

ORA-14120: incompletely specified partition bound for a DATE column

ORA-14121: MODIFY DEFAULT ATTRIBUTES may not be combined with other operations

ORA-14122: only one REVERSE or NOREVERSE clause may be specified

ORA-14123: duplicate NOREVERSE clause

ORA-14124: duplicate REVERSE clause

ORA-14125: REVERSE/NOREVERSE may not be specified in this context

ORA-14126: only a may follow description(s) of resulting partitions

ORA-14127: illegal index-partition-extended table name syntax

ORA-14128: FOREIGN KEY constraint mismatch in ALTER TABLE EXCHANGE PARTITION

ORA-14129: INCLUDING INDEXES must be specified as tables have enabled UNIQUE constraints

ORA-14130: UNIQUE constraints mismatch in ALTER TABLE EXCHANGE PARTITION

ORA-14131: enabled UNIQUE constraint exists on one of the tables

ORA-14132: table cannot be used in EXCHANGE

ORA-14133: ALTER TABLE MOVE cannot be combined with other operations

ORA-14134: indexes cannot use both DESC and REVERSE

ORA-14135: a LOB column cannot serve as a partitioning column

ORA-14136: ALTER TABLE EXCHANGE restricted by fine-grained security

ORA-14137: Table in partially dropped state, submit DROP TABLE PURGE

ORA-14138: An unexpected error encountered during drop table operation

ORA-14150: missing SUBPARTITION keyword

ORA-14151: invalid table partitioning method

ORA-14152: invalid number of partitions specified in PARTITIONS clause

ORA-14153: only one of STORE IN or clause may be specified

ORA-14154: only one of STORE IN or clause may be specified

ORA-14155: missing PARTITION or SUBPARTITION keyword

ORA-14156: invalid number of subpartitions specified in [SUBPARTITIONS | SUBPARTITION TEMPLATE] clause

ORA-14157: invalid subpartition name

ORA-14158: too many subpartition descriptions

ORA-14159: duplicate subpartition name

ORA-14160: this physical attribute may not be specified for a table subpartition

ORA-14161: subpartition number : sum of PCTUSED and PCTFREE may not exceed 100

ORA-14162: subpartition "": sum of PCTUSED and PCTFREE may not exceed 100

ORA-14164: subpartition "": INITRANS value must be less than MAXTRANS value

ORA-14165: MODIFY DEFAULT ATTRIBUTES FOR PARTITION may not be combined with other operations

ORA-14166: missing INTO keyword

ORA-14167: only one subpartition may be moved

ORA-14168: only one subpartition may be modified

ORA-14169: invalid ALTER TABLE MODIFY SUBPARTITION option

ORA-14170: cannot specify clause in CREATE TABLE|INDEX

ORA-14171: cannot specify clause in CREATE|ALTER TABLE

ORA-14172: invalid ALTER TABLE EXCHANGE SUBPARTITION option

ORA-14173: illegal subpartition-extended table name syntax

ORA-14174: only a may follow COALESCE PARTITION|SUBPARTITION

ORA-14175: a subpartition maintenance operation may not be combined with other operations

ORA-14176: this attribute may not be specified for a hash partition

ORA-14177: STORE-IN (Tablespace list) can only be specified for a LOCAL index on a Hash or Composite Range Hash table

ORA-14178: STORE IN (DEFAULT) clause is not supported for hash partitioned global indexes

ORA-14183: TABLESPACE DEFAULT can be specified only for Composite LOCAL index

ORA-14184: cannot create an UNIQUE partitioned index on a SYSTEM partitioned table

ORA-14185: incorrect physical attribute specified for this index partition

ORA-14186: number of sub-partitions of LOCAL index must equal that of the underlying table

ORA-14187: partitioning method for LOCAL index is inconsistent with that of the underlying table

ORA-14188: sub-partitioning columns must form a subset of key columns of a UNIQUE index

ORA-14189: this physical attribute may not be specified for an index subpartition

ORA-14190: only one ENABLE/DISABLE ROW MOVEMENT clause can be specified

ORA-14191: ALLOCATE STORAGE may not be specified for Composite Range partitioned object

ORA-14192: cannot modify physical index attributes of a Hash index partition

ORA-14193: invalid ALTER INDEX MODIFY SUBPARTITION option

ORA-14194: only one subpartition may be rebuilt

ORA-14195: ALLOCATE STORAGE may not be specified for RANGE or LIST partitioned object

ORA-14196: Specified index cannot be used to enforce the constraint.

ORA-14197: dimension values 3,4 cannot be used with domain indexes

ORA-14198: rowid column must refer to table specified in 1st parameter

ORA-14199: Disable fix for 4900129

ORA-14240: use of syntax for SYSTEM and Range Composite/System (R+S) partitioning methods

ORA-14241: invalid table partitioning method

ORA-14242: table is not partitioned by System, or Hash method

ORA-14243: table is not partitioned by Range, System, or Hash method

ORA-14244: illegal operation for a System or Composite Range/System partitioned table

ORA-14251: Specified subpartition does not exist

ORA-14252: invalid ALTER TABLE MODIFY PARTITION option for a Hash partition

ORA-14253: table is not partitioned by Composite Range method

ORA-14254: cannot specify ALLOCATE STORAGE for a (Composite) Range or List partitioned table

ORA-14255: table is not partitioned by Range, Composite Range or List method

ORA-14256: invalid resulting partition description(s)

ORA-14257: cannot move partition other than a Range or Hash partition

ORA-14258: invalid partition description

ORA-14259: table is not partitioned by Hash method

ORA-14260: incorrect physical attribute specified for this partition

ORA-14261: partition bound may not be specified when adding this Hash partition

ORA-14262: new subpartition name must differ from the old subpartition name

ORA-14263: new subpartition name must differ from that of any other subpartition of the object

ORA-14264: table is not partitioned by Composite Range method

ORA-14265: data type or length of a table subpartitioning column may not be changed

ORA-14266: data type or length of an index subpartitioning column may not be changed

ORA-14267: cannot specify PARALLEL clause when adding a (Composite) Range partition

ORA-14268: subpartition " of the partition resides in offlined tablespace

ORA-14269: cannot exchange partition other than a Range or Hash partition

ORA-14270: table is not partitioned by Range or Hash or List method

ORA-14271: table is not partitioned by Composite Range method

ORA-14272: only a partition with higher bound can be reused

ORA-14273: lower-bound partition must be specified first

ORA-14274: partitions being merged are not adjacent

ORA-14275: cannot reuse lower-bound partition as resulting partition

ORA-14276: EXCHANGE SUBPARTITION requires a non-partitioned, non-clustered table

ORA-14277: tables in EXCHANGE SUBPARTITION must have the same number of columns

ORA-14278: column type or size mismatch in EXCHANGE SUBPARTITION

ORA-14279: index mismatch for tables in ALTER TABLE EXCHANGE SUBPARTITION

ORA-14280: all rows in table do not qualify for specified subpartition

ORA-14281: CHECK constraint mismatch in ALTER TABLE EXCHANGE SUBPARTITION

ORA-14282: FOREIGN KEY constraint mismatch in ALTER TABLE EXCHANGE SUBPARTITION

ORA-14283: UNIQUE constraints mismatch in ALTER TABLE EXCHANGE SUBPARTITION

ORA-14284: one or more of table's subpartitions reside in a read-only tablespace

ORA-14285: cannot COALESCE the only partition of this hash partitioned table or index

ORA-14286: cannot COALESCE the only subpartition of this table partition

ORA-14287: cannot REBUILD a partition of a Composite Range partitioned index

ORA-14288: index is not partitioned by Composite Range method

ORA-14289: cannot make local index partition of Composite Range partitioned table unusable

ORA-14290: PRIMARY KEY constraint mismatch in ALTER TABLE EXCHANGE [SUB]PARTITION

ORA-14291: cannot EXCHANGE a composite partition with a non-partitioned table

ORA-14292: Partitioning type of table must match subpartitioning type of composite partition

ORA-14293: Number of partitioning columns does not match number of subpartitioning columns

ORA-14294: Number of partitions does not match number of subpartitions

ORA-14295: column type or size mismatch between partitioning columns and subpartitioning columns

ORA-14296: Table block size mismatch in ALTER TABLE EXCHANGE [SUB]PARTITION

ORA-14297: Index block size mismatch in ALTER TABLE EXCHANGE [SUB]PARTITION

ORA-14298: LOB column block size mismatch in ALTER TABLE EXCHANGE [SUB]PARTITION

ORA-14299: total number of partitions/subpartitions exceeds the maximum limit

ORA-14301: table-level attributes must be specified before partition-level attributes

ORA-14302: only one list of added-LOB-storage-clauses can be specified in a statement

ORA-14303: partitions or subpartitions are not in the right order

ORA-14304: List partitioning method expects a single partitioning column

ORA-14305: List value " specified twice in partition "

ORA-14306: List value " specified twice in partitions ", "

ORA-14307: partition contains too many list values

ORA-14308: partition bound element must be one of: string, datetime or interval literal, number, or NULL

ORA-14309: Total count of list values exceeds maximum allowed

ORA-14310: VALUES LESS THAN or AT clause cannot be used with List partitioned tables

ORA-14311: Expecting VALUES LESS THAN or AT clause

ORA-14312: Value already exists in partition

ORA-14313: Value does not exist in partition

ORA-14314: resulting List partition(s) must contain atleast 1 value

ORA-14315: cannot merge a partition with itself

ORA-14316: table is not partitioned by List method

ORA-14317: cannot drop the last value of partition

ORA-14318: DEFAULT partition must be last partition specified

ORA-14319: DEFAULT cannot be specified with other values

ORA-14320: DEFAULT cannot be specified for ADD/DROP VALUES or SPLIT

ORA-14321: cannot add/drop values to DEFAULT partition

ORA-14322: DEFAULT partition already exists

ORA-14323: cannot add partition when DEFAULT partition exists

ORA-14324: values being added already exist in DEFAULT partition

ORA-14325: only LOCAL indexes may be specified in this clause

ORA-14326: Primary index on an IOT, DOMAIN and LOB indexes may not be specified in the UPDATE INDEXES clause

ORA-14327: Some index [sub]partitions could not be rebuilt

ORA-14328: Allow UPDATE INDEXES clause for PIOTs. To be used for testing

ORA-14329: domain index [sub]partitions cannot be renamed in this clause

ORA-14400: inserted partition key does not map to any partition

ORA-14401: inserted partition key is outside specified partition

ORA-14402: updating partition key column would cause a partition change

ORA-14403: cursor invalidation detected after getting DML partition lock

ORA-14404: partitioned table contains partitions in a different tablespace

ORA-14405: partitioned index contains partitions in a different tablespace

ORA-14406: updated partition key is beyond highest legal partition key

ORA-14407: partitioned table contains subpartitions in a different tablespace

ORA-14408: partitioned index contains subpartitions in a different tablespace

ORA-14409: inserted partition key is outside specified subpartition

ORA-14450: attempt to access a transactional temp table already in use

ORA-14451: unsupported feature with temporary table

ORA-14452: attempt to create, alter or drop an index on temporary table already in use

ORA-14453: attempt to use a LOB of a temporary table, whose data has already been purged

ORA-14454: attempt to reference temporary table in a referential integrity constraint

ORA-14455: attempt to create referential integrity constraint on temporary table

ORA-14456: cannot rebuild index on a temporary table

ORA-14457: disallowed Nested Table column in a Temporary table

ORA-14458: attempt was made to create a temporary table with INDEX organization

ORA-14459: missing GLOBAL keyword

ORA-14460: only one COMPRESS or NOCOMPRESS clause may be specified

ORA-14461: cannot REUSE STORAGE on a temporary table TRUNCATE

ORA-14462: cannot TRUNCATE temporary table in an autonomous transaction which is already in use by the parent transaction

ORA-14500: LOCAL option not valid without partition name

ORA-14501: object is not partitioned

ORA-14503: only one partition name can be specified

ORA-14504: syntax not supported for analyze

ORA-14505: LOCAL option valid only for partitioned indexes

ORA-14506: LOCAL option required for partitioned indexes

ORA-14507: partition corrupt. all rows do not fall within partition bounds

ORA-14508: specified VALIDATE INTO table not found

ORA-14509: specified VALIDATE INTO table form incorrect

ORA-14510: can specify VALIDATE INTO clause only for partitioned tables

ORA-14511: cannot perform operation on a partitioned object

ORA-14512: cannot perform operation on a clustered object

ORA-14513: partitioning column may not be of object datatype

ORA-14514: LOCAL option not valid without subpartition name

ORA-14515: only one subpartition name can be specified

ORA-14516: subpartition corrupt. all rows do not fall within subpartition bounds

ORA-14517: subpartition of index '.' is in unusable state

ORA-14518: partition contains rows corresponding to values being dropped

ORA-14519: Conflicting tablespace block sizes for : Tablespace block size [] conflicts with previously specified/implied tablespace block size []

ORA-14520: Tablespace block size [] does not match existing object block size []

ORA-14521: Default tablespace block size [] for does not match existing block size []

ORA-14522: Partition-level default tablespace block size [] for does not match existing block size []

ORA-14523: Cannot co-locate [sub]partition of with table [sub]partition because block size [] does not match table block size []

ORA-14524: Always allow partitioning. To be used only by trusted clients

ORA-14525: Fast Split event

ORA-14526: This event is no longer used.

ORA-14527: Allow ROWID datatype for partitioning key columns

ORA-14528: simulated crash during drop table optimization

ORA-14529: copy hakan factor during ctas at facilitate exchange partition

ORA-14532: Event for bug 5618049

ORA-14534: Event for bug 5996430 fix to be turned on

ORA-14551: cannot perform a DML operation inside a query

ORA-14552: cannot perform a DDL, commit or rollback inside a query or DML

ORA-14553: cannot perform a lob write operation inside a query

ORA-14601: Illegal to specify SUBPARTITIONS or STORE-IN while specifying a subpartition template

ORA-14602: SUBPARTITION TEMPLATE is legal only for a composite partitioned table

ORA-14603: [SUBPARTITIONS | SUBPARTITION TEMPLATE] subpartition_count syntax is valid only for range-hash tables

ORA-14604: During CREATE TABLE time it is illegal to specify SUBPARTITIONS or STORE IN once a SUBPARTITION TEMPLATE has been specified

ORA-14605: Name missing for subpartition / lob segment in template

ORA-14606: Tablespace was specified for previous subpartitions in template but is not specified for

ORA-14607: Tablespace was not specified for previous subpartitions in template but is specified for

ORA-14608: Tablespace was specified for the previous lob segments of column in template but is not specified for

ORA-14609: Tablespace was not specified for the previous lob segments of column in template but is specified for

ORA-14610: Lob attributes not specified for lob column for subpartition

ORA-14611: Duplicate subpartition name in template

ORA-14612: Duplicate lob segment name for lob column in template

ORA-14613: Attempt to generate name from parent name and template name failed as the combine named would have been longer than allowed

ORA-14614: List value " specified twice in subpartition "

ORA-14615: List value " specified twice in subpartitions ", "

ORA-14616: table is not subpartitioned by List method

ORA-14617: cannot add/drop values to DEFAULT subpartition

ORA-14618: cannot drop the last value of subpartition

ORA-14619: resulting List subpartition(s) must contain at least 1 value

ORA-14620: DEFAULT subpartition already exists

ORA-14621: cannot add subpartition when DEFAULT subpartition exists

ORA-14622: Value already exists in subpartition

ORA-14623: Value does not exist in subpartition

ORA-14624: DEFAULT subpartition must be last subpartition specified

ORA-14625: subpartition contains rows corresponding to values being dropped

ORA-14626: values being added already exist in DEFAULT subpartition

ORA-14627: Invalid operation was specified on a GLOBAL partitioned index

ORA-14628: specification of bounds is inconsistent with LIST method

ORA-14629: cannot drop the only subpartition of a partition

ORA-14630: subpartition resides in offlined tablespace

ORA-14631: the partition bounds do not match the subpartition bounds of the partition

ORA-14632: cannot specify PARALLEL clause when adding a List subpartition

ORA-14633: Index maintenance clause not allowed for ADD list subpartition to a Composite partitioned table

ORA-14634: Subpartition descriptions cannot be specified during the SPLIT/MERGE of a partition of a Range-List partitioned table

ORA-14635: only one resulting subpartition can be specified for MERGE SUBPARTITIONS

ORA-14636: only 2 resulting subpartition can be specified for SPLIT SUBPARTITION

ORA-14637: cannot merge a subpartition with itself

ORA-14638: cannot MERGE subpartitions in different Range Composite partitions

ORA-14639: SUBPARTITIONS clause can be specified only for Hash, Composite Range Hash table/partition

ORA-14640: add/coalesce index partition operation is valid only for hash partitioned global indexes

ORA-14641: STORE-IN clause can be specified only for a Hash, Composite Range Hash table/partition

ORA-14642: Bitmap index mismatch for tables in ALTER TABLE EXCHANGE PARTITION

ORA-14643: Hakan factor mismatch for tables in ALTER TABLE EXCHANGE PARTITION

ORA-14644: table is not subpartitioned by Hash method

ORA-14645: STORE IN clause cannot be specified for Range List objects

ORA-14646: Specified alter table operation involving compression cannot be performed in the presence of usable bitmap indexes

ORA-14700: Object(s) owned by SYS cannot be locked by non-SYS user

ORA-24172: rule set . has errors

ORA-24173: nested query not supported for rule condition

ORA-24180: invalid transformation expression, the transformation expression does not evaluate to the target type/attribute

ORA-24181: The type does not exist

ORA-24182: attribute number specified does not exist

ORA-24183: invalid transformation

ORA-24184: transformation . already exists

ORA-24185: transformation . does not exist

ORA-24186: wrong object type, could not transform message

ORA-24190: length of payload exceeds

ORA-24191: the property name has existed

ORA-24192: the property name cannot be null

ORA-24193: the property value exceeds the valid range

ORA-24194: attempt to read data in a message as the wrong type

ORA-24195: attempt to retrieve the name list of a map message with size exceeding 1024

ORA-24196: access the message in a wrong access mode

ORA-24197: JAVA stored procedure throws JAVA exceptions

ORA-24198: attempt to use an invalid operation ID

ORA-24199: message store is overflow

ORA-24201: duplicate publisher, publisher already added to the queue

ORA-24202: publisher does not exist for the queue

ORA-24203: operation failed, queue table . has errors

ORA-24230: input to DBMS_DDL.WRAP is not a legal PL/SQL unit

ORA-24231: database access descriptor (DAD) not found

ORA-24232: unknown Embedded PL/SQL Gateway attribute

ORA-24233: argument passed to DBMS_UTILITY.VALIDATE is not legal

ORA-24234: unable to get source of ""."" , insufficient privileges or does not exist

ORA-24235: bad value for object type:

ORA-24236: source text is empty

ORA-24237: object id argument passed to DBMS_UTILITY.INVALIDATE is not legal

ORA-24238: object settings argument passed to DBMS_UTILITY.INVALIDATE is not legal

ORA-24239: object could not be invalidated

ORA-24240: invalid database access descriptor (DAD) name

ORA-24265: Insufficient privileges for SQL profile operation

ORA-24270: a row already exists in the table for these parameters

ORA-24271: translation type must be either T, S or M

ORA-24272: initialization value must be either F or T

ORA-24273: translation text is required if translation type is T or S

ORA-24274: no row exists in the table for these parameters

ORA-24275: function " parameter " missing or invalid

ORA-24276: function " output " maximum value exceeded

ORA-24280: invalid input value for parameter

ORA-24281: invalid access past the maximum size of LOB parameter

ORA-24291: Sort Hash Cluster error

ORA-24292: no more tables permitted in this sorted hash cluster

ORA-24295: max key length () for sorted hash cluster exceeded

ORA-24300: bad value for mode

ORA-24301: null host specified in thread-safe logon

ORA-24302: host connection in use by another thread

ORA-24303: call not supported in non-deferred linkage

ORA-24304: datatype not allowed for this call

ORA-24305: bad bind or define context

ORA-24306: bad buffer for piece

ORA-24307: invalid length for piece

ORA-24308: illegal define position

ORA-24309: already connected to a server

ORA-24310: length specified for null connect string

ORA-24311: memory initialization failed

ORA-24312: illegal parameters specified for allocating user memory

ORA-24313: user already authenticated

ORA-24314: service handle not initialized

ORA-24315: illegal attribute type

ORA-24316: illegal handle type

ORA-24317: define handle used in a different position

ORA-24318: call not allowed for scalar data types

ORA-24319: unable to allocate memory

ORA-24320: unable to initialize a mutex

ORA-24321: inconsistent parameters passed

ORA-24322: unable to delete an initialized mutex

ORA-24323: value not allowed

ORA-24324: service handle not initialized

ORA-24325: this OCI operation is not currently allowed

ORA-24326: handle passed in is already initialized

ORA-24327: need explicit attach before authenticating a user

ORA-24328: illegal attribute value

ORA-24329: invalid character set identifier

ORA-24330: internal OCI error

ORA-24331: user buffer too small

ORA-24332: invalid object type

ORA-24333: zero iteration count

ORA-24334: no descriptor for this position

ORA-24335: cannot support more than 1000 columns

ORA-24336: invalid result set descriptor

ORA-24337: statement handle not prepared

ORA-24338: statement handle not executed

ORA-24339: cannot set server group name after connecting to server

ORA-24340: cannot support more than 255 columns

ORA-24341: bad mode specified

ORA-24342: unable to destroy a mutex

ORA-24343: user defined callback error

ORA-24344: success with compilation error

ORA-24345: A Truncation or null fetch error occurred

ORA-24346: cannot execute without binding variables

ORA-24347: Warning of a NULL column in an aggregate function

ORA-24348: Update or Delete without Where

ORA-24350: OCI call not allowed

ORA-24351: invalid date passed into OCI call

ORA-24352: invalid COBOL display type passed into OCI call

ORA-24353: user buffer too small to accommodate COBOL display type

ORA-24354: number fetched too large to fit in COBOL display type buffer.

ORA-24355: attempt to store a negative number in an Unsigned Display type.

ORA-24356: internal error while converting from to COBOL display type.

ORA-24357: internal error while converting from to OCIDate.

ORA-24358: OCIBindObject not invoked for a Object type or Reference

ORA-24359: OCIDefineObject not invoked for a Object type or Reference

ORA-24360: Type Descriptor Object not specified for Object Bind/Define

ORA-24361: basic bind call not invoked before invoking advanced bind call

ORA-24362: improper use of the character count flag

ORA-24363: measurements in characters illegal here

ORA-24364: internal error while padding blanks

ORA-24365: error in character conversion

ORA-24366: migratable user handle is set in service handle

ORA-24367: user handle has not been set in service handle

ORA-24368: OCI mutex counter non-zero when freeing a handle

ORA-24369: required callbacks not registered for one or more bind handles

ORA-24370: illegal piecewise operation attempted

ORA-24371: data would not fit in current prefetch buffer

ORA-24372: invalid object for describe

ORA-24373: invalid length specified for statement

ORA-24374: define not done before fetch or execute and fetch

ORA-24375: Cannot use V6 syntax when talking to a V8 server

ORA-24376: cannot register/get user callback for non-environment handle

ORA-24377: invalid OCI function code

ORA-24378: user callbacks not allowed for this call

ORA-24379: invalid user callback type

ORA-24380: invalid mode specification

ORA-24381: error(s) in array DML

ORA-24382: statement handled already executed or described

ORA-24383: Overflow segment of an IOT cannot be described

ORA-24384: Application context size is not initialized

ORA-24385: Application context size or index is not valid

ORA-24386: statement/server handle is in use when being freed

ORA-24387: Invalid attach driver

ORA-24388: Unsupported functionality in fast path mode

ORA-24389: Invalid scrollable fetch parameters

ORA-24390: Unsupported scrollable cursor operation

ORA-24391: invalid fetch operation

ORA-24392: no connection pool to associate server handle

ORA-24393: invalid mode for creating connection pool

ORA-24394: invalid mode for destroying connection pool

ORA-24395: cannot reinitialize non-existent pool

ORA-24396: invalid attribute set in server handle

ORA-24397: error occurred while trying to free connections

ORA-24398: connection pool already exists

ORA-24399: invalid number of connections specified

ORA-24400: error occurred while creating connections in the pool

ORA-24401: cannot open further connections

ORA-24402: error occurred while creating connections in the pool

ORA-24403: error occurred while trying to destroy the connection pool

ORA-24404: connection pool does not exist

ORA-24405: error occurred while trying to create connections in the pool

ORA-24406: API mode switch is disallowed when a call is in progress.

ORA-24407: connection pool already exists

ORA-24408: could not generate unique server group name

ORA-24409: client cannot understand the object

ORA-24410: scrollable cursor max size exceeded

ORA-24411: Session pool already exists.

ORA-24412: Cannot reinitialize non-existent pool

ORA-24413: Invalid number of sessions specified

ORA-24414: Only %d sessions could be started.

ORA-24415: Missing or null username.

ORA-24416: Invalid session Poolname was specified.

ORA-24417: Session pool size has exceeded the maximum limit

ORA-24418: Cannot open further sessions.

ORA-24419: Proxy sessions are not supported in this mode.

ORA-24420: OCISessionRelease must be used to release this session.

ORA-24421: OCISessionRelease cannot be used to release this session.

ORA-24422: error occurred while trying to destroy the Session Pool

ORA-24430: Null values for sqltext and key were specified.

ORA-24431: Statement does not exist in the cache

ORA-24432: The statement that was returned is not tagged.

ORA-24433: This statement has already been prepared using OCISmtPrepare2.

ORA-24434: OCISmtRelease called before OCISmtPrepare2.

ORA-24435: Invalid Service Context specified.

ORA-24436: Invalid statement Handle.

ORA-24437: OCISmtExecute called before OCISmtPrepare2.

ORA-24438: Invalid Authentication Handle specified.

ORA-24439: success with PLSQL compilation warning

ORA-24440: OCI Easy Install mode cannot be initialized

ORA-24450: Cannot pre-process OCI statement

ORA-24460: Native Net Internal Error

ORA-24471: KOH tracing event

ORA-24472: KOC tracing event

ORA-24476: KOPF tracing event

ORA-24500: invalid UTF16 mode

ORA-24501: invalid UTF16 string passed in

ORA-24502: codepoint length overflows

ORA-24503: codepoint length overflows for piecewise operation

ORA-24504: data length larger than expected

ORA-24505: cannot change character set id on the handle

ORA-24506: invalid attempt to change character set id on env handle

ORA-24507: invalid combination of character set ids

ORA-24508: Buffer is not aligned correctly.

ORA-24750: incorrect size of attribute

ORA-24752: OCI_TRANS_NEW flag must be specified for local transactions

ORA-24753: local transactions cannot be detached

ORA-24754: cannot start new transaction with an active transaction

ORA-24755: OCI_TRANS_NOMIGRATE, OCI_TRANS_JOIN options are not supported

ORA-24756: transaction does not exist

ORA-24757: duplicate transaction identifier

ORA-24758: not attached to the requested transaction

ORA-24759: invalid transaction start flags

ORA-24760: invalid isolation level flags

ORA-24761: transaction rolled back

ORA-24762: server failed due to unspecified error

ORA-24763: transaction operation cannot be completed now

ORA-24764: transaction branch has been heuristically committed

ORA-24765: transaction branch has been heuristically rolled back

ORA-24766: transaction branch has been partly committed and aborted

ORA-24767: transaction was read-only and has been committed

ORA-24768: commit protocol error occurred in the server

ORA-24769: cannot forget an active transaction

ORA-24770: cannot forget a prepared transaction

ORA-24771: cannot detach, prepare or forget a local transaction

ORA-24772: Cannot mix tightly-coupled and loosely-coupled branches

ORA-24773: invalid transaction type flags

ORA-24774: cannot switch to specified transaction

ORA-24775: cannot prepare or commit transaction with non-zero lock value

ORA-24776: cannot start a new transaction

ORA-24777: use of non-migratable database link not allowed

ORA-24778: cannot open connections

ORA-24779: detach not allowed with open remote cursor

ORA-24780: cannot recover a transaction while in an existing transaction

ORA-24781: branches don't belong to the same global transaction

ORA-24782: Cannot detach from a non-migratable transaction

ORA-24783: Cannot switch non-migratable transactions

ORA-24784: Transaction exists

ORA-24785: Cannot resume a non-migratable transaction

ORA-24786: separated transaction has been completed

ORA-24787: remote cursors must be closed before a call completes

ORA-24788: cannot switch to specified transaction (server type)

ORA-24789: start not allowed in recursive call

ORA-24790: cannot mix OCI_TRANS_RESUME and transaction isolation flags

ORA-24791: invalid transaction start flags

ORA-24792: cannot mix services in a single global transaction

ORA-24793: Test DTP service start and stop

ORA-24794: no active DTP service found

ORA-24795: Illegal attempt made

ORA-24796: operation completed; resume of original transaction rolled back

ORA-24801: illegal parameter value in OCI lob function

ORA-24802: user defined lob read callback error

ORA-24803: illegal parameter value in lob read function

ORA-24804: Lob read/write functions called while another OCI LOB read/write streaming is in progress

ORA-24805: LOB type mismatch

ORA-24806: LOB form mismatch

ORA-24807: LOB form mismatch

ORA-24808: streaming of lob data is not allowed when using lob buffering

ORA-24809: amount specified will not fit in the lob buffers

ORA-24810: attempting to write more data than indicated

ORA-24811: less data provided for writing than indicated

ORA-24812: character set conversion to or from UCS2 failed

ORA-24813: cannot send or receive an unsupported LOB

ORA-24814: operation not allowed for temporary LOBs

ORA-24815: Invalid character set form

ORA-24816: Expanded non LONG bind data supplied after actual LONG or LOB column

ORA-24817: Unable to allocate the given chunk for current lob operation

ORA-24850: failed to startup shared subsystem

ORA-24851: failed to connect to shared subsystem

ORA-24852: protocol error during statement execution

ORA-24853: failed to connect thread to shared subsystem

ORA-24854: invalid pieceinfo provided

ORA-24900: invalid or unsupported mode parameter passed in call

ORA-24901: handles belonging to different environments passed into an OCI call

ORA-24902: invalid subscription name or name-length in subscription handle

ORA-24903: invalid namespace attribute passed into OCI call

ORA-24904: invalid callback attribute passed into OCI call

ORA-24905: invalid recipient protocol attribute passed into OCI call

ORA-24906: invalid recipient attribute passed into OCI call

ORA-24907: invalid pair of callback and recipient protocol attributes

ORA-24908: invalid recipient presentation attribute

ORA-24909: call in progress. Current operation cancelled

ORA-24910: Event to enable optimized fetch protocol

ORA-24911: Cannot start listener thread at specified port

ORA-24912: Listener thread failed.

ORA-24950: unregister failed, registration not found

ORA-24951: EMON tracing event

ORA-24952: register, unregister or post has incorrect collection count

ORA-24960: the attribute is greater than the maximum allowable length of %d

ORA-25000: invalid use of bind variable in trigger WHEN clause

ORA-25001: cannot create this trigger type on views

ORA-25002: cannot create INSTEAD OF triggers on tables

ORA-25003: cannot change NEW values for this column type in trigger

ORA-25004: WHEN clause is not allowed in INSTEAD OF triggers

ORA-25005: cannot CREATE INSTEAD OF trigger on a read-only view

ORA-25006: cannot specify this column in UPDATE OF clause

ORA-25007: functions or methods not allowed in WHEN clause

ORA-25008: no implicit conversion to LOB datatype in instead-of trigger

ORA-25009: Nested table clause allowed only for INSTEAD OF triggers

ORA-25010: Invalid nested table column name in nested table clause

ORA-25011: cannot create trigger on internal AQ table

ORA-25012: PARENT and NEW values cannot be identical

ORA-25013: OLD and PARENT values cannot be identical

ORA-25014: cannot change the value of a PARENT reference variable

ORA-25015: cannot perform DML on this nested table view column

ORA-25016: cannot specify column list for insert into nested table view column

ORA-25017: cannot reference NEW ROWID for movable rows in before triggers

ORA-25018: conflicting trigger already exists

ORA-25019: too much concurrency

ORA-25020: renaming system triggers is not allowed

ORA-25100: TABLESPACE option can only be used with ALTER INDEX REBUILD

ORA-25101: duplicate REBUILD option specification

ORA-25102: PARALLEL option can only be used with ALTER INDEX REBUILD

ORA-25103: NOPARALLEL option can only be used with ALTER INDEX REBUILD

ORA-25104: UNRECOVERABLE option can only be used with ALTER INDEX REBUILD

ORA-25105: RECOVERABLE option can only be used with ALTER INDEX REBUILD

ORA-25106: only one of PARALLEL or NOPARALLEL clause may be specified

ORA-25107: duplicate TABLESPACE option specification

ORA-25108: standby lock name space exceeds size limit of characters

ORA-25109: standby lock name space has illegal character "

ORA-25110: NOSORT may not be used with a bitmap index

ORA-25111: creation of BITMAP cluster indices is not supported

ORA-25112: maximum number of BITMAP index columns is 30

ORA-25113: GLOBAL may not be used with a bitmap index

ORA-25114: invalid file number specified in the DUMP DATAFILE/TEMPFILE command

ORA-25115: duplicate BLOCK option specification

ORA-25116: invalid block number specified in the DUMP DATAFILE/TEMPFILE command

ORA-25117: MIN/MAX/Block Number expected

ORA-25118: invalid DUMP DATAFILE/TEMPFILE option

ORA-25119: LOGGING/NOLOGGING option already specified

ORA-25120: MINIMUM EXTENT option already specified

ORA-25121: MINIMUM EXTENT value greater than maximum extent size

ORA-25122: Only LOCAL bitmap indexes are permitted on partitioned tables

ORA-25123: Too many components specified in the name.

ORA-25124: Database link name not allowed.

ORA-25125: BUFFER_POOL storage option not allowed

ORA-25126: Invalid name specified for BUFFER_POOL

ORA-25127: RELY not allowed in NOT NULL constraint

ORA-25128: No insert/update/delete on table with constraint (.) disabled and validated

ORA-25129: cannot modify constraint () - no such constraint

ORA-25130: cannot modify primary key - primary key not defined for table

ORA-25131: cannot modify unique() - unique key not defined for table

ORA-25132: UNIQUE constraint (.) disabled and validated in ALTER TABLE EXCHANGE PARTITION

ORA-25133: duplicate SINGLE TABLE option specified

ORA-25134: keyword TABLE expected

ORA-25135: cannot use the SINGLE TABLE option

ORA-25136: this cluster can contain only one table

ORA-25137: Data value out of range

ORA-25138: initialization parameter has been made obsolete

ORA-25139: invalid option for CREATE TEMPORARY TABLESPACE

ORA-25140: space policy cannot be specified for the extent management

ORA-25141: invalid EXTENT MANAGEMENT clause

ORA-25142: default storage clause specified twice

ORA-25143: default storage clause is not compatible with allocation policy

ORA-25144: invalid option for CREATE TABLESPACE with TEMPORARY contents

ORA-25145: allocation policy already specified

ORA-25146: EXTENT MANAGEMENT option already specified

ORA-25147: UNIFORM SIZE value greater than maximum extent size

ORA-25148: ONLINE option not permitted

ORA-25149: Columns of UROWID type may not be indexed

ORA-25150: ALTERING of extent parameters not permitted

ORA-25151: Rollback Segment cannot be created in this tablespace

ORA-25152: TEMPFILE cannot be dropped at this time

ORA-25153: Temporary Tablespace is Empty

ORA-25154: column part of USING clause cannot have qualifier

ORA-25155: column used in NATURAL join cannot have qualifier

ORA-25156: old style outer join (+) cannot be used with ANSI joins

ORA-25157: Specified block size is not valid

ORA-25158: Cannot specify RELY for foreign key if the associated primary key is NORELY

ORA-25175: no PRIMARY KEY constraint found

ORA-25176: storage specification not permitted for primary key

ORA-25177: UNRECOVERABLE option not permitted

ORA-25178: duplicate PCTTHRESHOLD storage option specification

ORA-25179: invalid PCTTHRESHOLD storage option value

ORA-25180: PCTTHRESHOLD only valid for certain table organizations

ORA-25181: missing ON keyword for NESTED INDEX

ORA-25182: feature not currently available for index-organized tables

ORA-25183: index-organized table top index segment is in a different tablespace

ORA-25184: column name expected

ORA-25185: index column other than last can not be specified for INCLUDE clause

ORA-25186: INCLUDING clause specified for index-organized table without OVERFLOW

ORA-25187: specified exceptions table form incorrect

ORA-25188: cannot drop/disable/defer the primary key constraint for index-organized tables or sorted hash cluster

ORA-25189: illegal ALTER TABLE option for an index-organized table

ORA-25190: an index-organized table maintenance operation may not be combined with other operations

ORA-25191: cannot reference overflow table of an index-organized table

ORA-25192: invalid option for an index-organized table

ORA-25193: cannot use COMPRESS option for a single column key

ORA-25194: invalid COMPRESS prefix length value

ORA-25195: invalid option for index on an index-organized table

ORA-25196: keyword MOVE in ALTER TABLE MOVE must immediately follow table name

ORA-25197: an overflow segment already exists for the indexed-organized table

ORA-25198: only range, list, and hash partitioning are supported for index-organized table

ORA-25199: partitioning key of a index-organized table must be a subset of the primary key

ORA-25200: invalid value , QUEUE_NAME should be [SCHEMA.]NAME

ORA-25201: invalid value, VISIBILITY should be ON_COMMIT or IMMEDIATE

ORA-25202: invalid value NULL, should be non-NULL

ORA-25203: invalid value , DELAY should be non-negative

ORA-25204: invalid value, SEQUENCE_DEVIATION should be BEFORE or TOP

ORA-25205: the QUEUE . does not exist

ORA-25206: enqueue failed, enqueue to exception queue . not permitted

ORA-25207: enqueue failed, queue . is disabled from enqueueing

ORA-25208: RELATIVE_MSGID must be specified if SEQUENCE_DEVIATION is BEFORE

ORA-25209: invalid value , EXPIRATION should be non-negative or NEVER

ORA-25210: invalid value for RELATIVE_MSGID, no message in queue with that msgid

ORA-25211: invalid DELAY specified when using sequence deviation

ORA-25212: invalid PRIORITY specified when using sequence deviation

ORA-25213: message with specified RELATIVE_MSGID has been dequeued

ORA-25214: cannot specify delay or expiration for enqueue to exception queue

ORA-25215: user_data type and queue type do not match

ORA-25216: invalid recipient, either NAME or ADDRESS must be specified

ORA-25217: enqueue failed, visibility must be IMMEDIATE for queue .

ORA-25218: enqueue failed, delay must be zero for queue .

ORA-25219: enqueue failed, sequence deviation not allowed for queue .

ORA-25220: enqueue failed, signature not specified for a non-repudiable queue

ORA-25221: enqueue failed, signature specified queue not supporting non-repudiation

ORA-25222: enqueue failed, complete sender info. not provided for a queue supporting non-repudiation

ORA-25223: user_data type used is not supported

ORA-25224: sender name must be specified for enqueue into secure queues

ORA-25225: invalid value , DEQUEUE_MODE should be REMOVE or BROWSE or LOCKED

ORA-25226: dequeue failed, queue . is not enabled for dequeue

ORA-25228: timeout or end-of-fetch during message dequeue from .

ORA-25229: error on transformation of message

ORA-25230: invalid value , WAIT should be non-negative

ORA-25231: cannot dequeue because CONSUMER_NAME not specified

ORA-25232: duplicate recipients specified for message

ORA-25233: invalid parameter specified for NAVIGATION

ORA-25234: NEXT_TRANSACTION navigation option invalid for queue table .

ORA-25235: fetched all messages in current transaction

ORA-25236: buffer too small for user data

ORA-25237: navigation option used out of sequence

ORA-25238: too many recipients specified for message destination

ORA-25239: message ID not supplied when dequeuing from exception queue .

ORA-25240: message ID and dequeue condition/correlation ID specified in dequeue options

ORA-25241: cannot change correlation ID from to without FIRST_MESSAGE option

ORA-25242: cannot change subscriber name from to without FIRST_MESSAGE option

ORA-25243: CONSUMER_NAME cannot be specified when dequeuing from exception queue .

ORA-25244: dequeue index key not found, QUEUE , rowid

ORA-25245: agent name cannot be specified if address is a single-consumer queue or an exception queue

ORA-25246: listen failed, the address is an 8.0 style exception queue

ORA-25247: is not a recipient of specified message

ORA-25248: duplicate agent specified in the agent list

ORA-25249: dequeue failed, dequeue not allowed for queue .

ORA-25250: Cannot specify a remote recipient for the message

ORA-25251: exceeded maximum number of recipients for message

ORA-25252: listen failed, the address is a non-persistent queue

ORA-25253: listen failed, queue . is not enabled for dequeue

ORA-25254: time-out in LISTEN while waiting for a message

ORA-25255: incorrect subscription string

ORA-25256: consumer cannot be specified with a single-consumer queue or an exception queue

ORA-25257: consumer must be specified with a multi-consumer queue

ORA-25258: cannot register for notifications on an 8.0 style exception queue

ORA-25259: cannot specify protocol for agent

ORA-25260: AQ latch cleanup testing event

ORA-25261: JOB_QUEUE_PROCESSES must be at least 2 for AQ propagation

ORA-25262: agent name cannot be NULL if address is a multi-consumer queue

ORA-25263: no message in queue . with message ID

ORA-25264: cant get signature for this queue

ORA-25265: specified signature for a queue which does not support reciever non-repudiation

ORA-25266: didnt try to dequeue by message id. with the signature

ORA-25267: didnt specify the signature for a reciever non-repudiable queue

ORA-25268: didnt dequeue in browse mode with get signature option

ORA-25269: cant specify sognature with get signature option

ORA-25270: sender info does not match with the actual sender of the message

ORA-25271: queue table not found for the given queue

ORA-32009: cannot reset the memory value for instance from instance

ORA-32010: cannot find entry to delete in SPFILE

ORA-32011: cannot restore SPFILE to location already being used by the instance

ORA-32012: failure in processing system parameters from restored SPFILE

ORA-32013: failure in verifying parameters from the restored SPFILE

ORA-32014: error processing parameter "" from the SPFILE restore image

ORA-32015: unable to restore SPFILE

ORA-32016: parameter "" cannot be updated in SPFILE

ORA-32017: failure in updating SPFILE

ORA-32018: parameter cannot be modified in memory on another instance

ORA-32019: The parameter SPFILE cannot be updated in the server parameter file.

ORA-32020: SID=* clause needed to modify this parameter

ORA-32021: parameter value longer than characters

ORA-32022: parameter value longer than characters

ORA-32023: Could not obtain PE enqueue

ORA-32024: invalid directory specified for audit_file_dest parameter

ORA-32025: . is not a table or view object.

ORA-32026: . has fewer columns compared to table.

ORA-32027: There is no column with the matching type in ..

ORA-32028: Syslog facility or level not recognized

ORA-32031: illegal reference of a query name in WITH clause

ORA-32032: free temporary object number not available

ORA-32033: unsupported column aliasing

ORA-32034: unsupported use of WITH clause

ORA-32035: unreferenced query name defined in WITH clause

ORA-32036: unsupported case for inlining of query name in WITH clause

ORA-32037: unsupported use of LEVEL in membership condition

ORA-32050: operation failed

ORA-32051: mapping service not available

ORA-32052: failed to start mapping service

ORA-32053: operation not supported

ORA-32054: lost communication with FMPUTL process

ORA-32055: invalid file type

ORA-32056: invalid number of extents

ORA-32057: invalid lock mode

ORA-32058: operation restricted to SYSDBA users

ORA-32059: deadlock detected on mapping structures

ORA-32060: channel failure

ORA-32100: operation invalid on transient object

ORA-32101: cannot create OCI Environment

ORA-32102: invalid OCI handle

ORA-32103: error from OCI call

ORA-32104: cannot retrieve OCI error message

ORA-32106: array fetch not allowed without setBuffer on all columns

ORA-32107: internal OCI memory allocation failure

ORA-32108: max column or parameter size not specified

ORA-32109: invalid column or parameter position

ORA-32110: Connection not specified

ORA-32113: Null object passed

ORA-32114: Cannot perform operation on a null LOB

ORA-32116: Buffer size is less than amount specified

ORA-32117: Source LOB is null

ORA-32118: Cannot perform operation on a null FILE

ORA-32120: Buffer size is less than amount specified

ORA-32121: Source FILE is null

ORA-32123: Attribute number is out of range

ORA-32124: Illegal attribute passed

ORA-32125: Attribute type is not appropriate

ORA-32126: Cannot perform operations on a null REF

ORA-32127: REFs do not belong to any connection

ORA-32128: setDataBuffer called after fetch has started

ORA-32129: cannot get information about this column

ORA-32130: invalid offset/index referenced in Bytes

ORA-32131: bind data type cannot be changed

ORA-32132: maximum iterations cannot be changed

ORA-32133: Cannot get stream from LOB/FILE

ORA-32134: Cannot assign LOBs

ORA-32135: Cannot assign FILEs

ORA-32136: Cannot perform operation on an invalid stream

ORA-32139: Cannot write to the stream

ORA-32140: cannot perform this operation on stream

ORA-32141: get method does not match the type of the parameter

ORA-32142: maximum number of iterations exceeded

ORA-32143: Environment not specified

ORA-32144: Cannot perform operation on a null interval

ORA-32145: Environment not specified

ORA-32146: Cannot perform operation on a null date

ORA-32147: Environment not specified

ORA-32150: Cannot perform operation on a null timestamp

ORA-32151: Environment not specified

ORA-32152: Cannot perform operation on a null number

ORA-32153: Environment not specified

ORA-32154: Anydata context not specified

ORA-32155: Anydata not specified

ORA-32156: Cannot perform operation on stream

ORA-32157: Infinity not supported

ORA-32158: Invalid type passed

ORA-32159: Cannot set prefetch options for a null Type

ORA-32161: Cannot perform piecewise fetch

ORA-32162: Read/Write SQL method not registered

ORA-32163: Method called on Invalid Environment type

ORA-32164: Method called on Invalid Connection type

ORA-32165: Cannot get XA environment

ORA-32166: Cannot get XA connection

ORA-32167: No payload set on the Message

ORA-32168: Cannot perform operation on a null AnyData

ORA-32300: cannot drop a secondary materialized view ""."

ORA-32301: object-relational materialized views must be primary key based

ORA-32302: object materialized views must be object ID based
